

FUNDACIÓN
VALENCIAPORT

*The knowledge centre for the leading
port cluster in the Mediterranean.*

FUNDACIÓN
VALENCIAPORT

WHO WE ARE

Fundación Valenciaport is a centre for **Applied Research, Innovation** and **Training**, serving the port-logistics cluster.

It is an initiative of the Port Authority of Valencia, bringing together key companies, universities and institutions in the port community.

Since its creation, it has developed projects in more than sixty countries, mainly in the Mediterranean, the rest of Europe, Asia and Latin America.

WHAT WE DO

- Promoting **innovation**, by fostering the design, implementation and execution of **R&D&I projects** aimed at enhancing the competitiveness of companies and institutions in the sector.
- Knowledge management, offering specialized and high value-added **training** for the continuous professional development of the port-logistics community's human capital.
- Active **cooperation** policy with port communities **around the world** by providing **technical assistance** and support to Spanish logistics operators undergoing a **process of internationalization**. Internationally showcasing the Port of Valencia's know-how
- **Market intelligence** service to develop indexes, databases and reports of strategic interest to the sector.
- Support for the **port-logistics community**, encouraging cooperation within the sector as well as outreach initiatives and dialogue with the general public, within the framework of a collective **social responsibility** strategy.

KNOWLEDGE AREAS

Port-Maritime
market

Port planning
and
management

Port
logistics

Digital
transformation

Sustainability
and energy
transition

Security and
protection

Integration
between the
port and the city

| PORT-MARITIME MARKET:

- Strategic reports for the port-maritime sector
- Analysis of foreign trade and international traffic
- Databases of shipping lines
- Price indexes for the container transport market

| PORT PLANNING AND MANAGEMENT:

- Traffic and demand forecasting
- Financial and socio-economic analysis of port and logistic projects
- Strategic and master plans
- Port community quality systems

| PORT LOGISTICS:

- Port integration in global supply chains
- Port connectivity with the hinterland (rail, road and logistics platforms)
- Short Sea Shipping
- Automation and integration processes of autonomous vehicles (ships, trucks, machinery)
- Sea traffic management systems and synchronization with port operations

| INTEGRATION BETWEEN THE PORT AND THE CITY:

- CSR
- Sustainable mobility
- Port-City Planning
- Urban logistics
- Sustainable tourism and cruises

| DIGITAL TRANSFORMATION:

- Collaborative environments (single windows, PCS and traffic management systems)
- Innovation in management systems (PMIS, TOS...)
- Traceability technologies
- Port 4.0 (Internet of things, cyber-physical systems, Big Data and Artificial Intelligence)
- New architectures and tools (blockchain, 5G and cloud computing)

| SUSTAINABILITY AND ENERGY TRANSITION

- Clean energy: renewables, hydrogen, LNG and other alternatives for port and maritime use
- Energy efficiency in port operations
- Circular economy in ports
- Measuring emissions in ports, ships and logistics chains
- Analysis of the impact of climate change on infrastructures and logistics operators

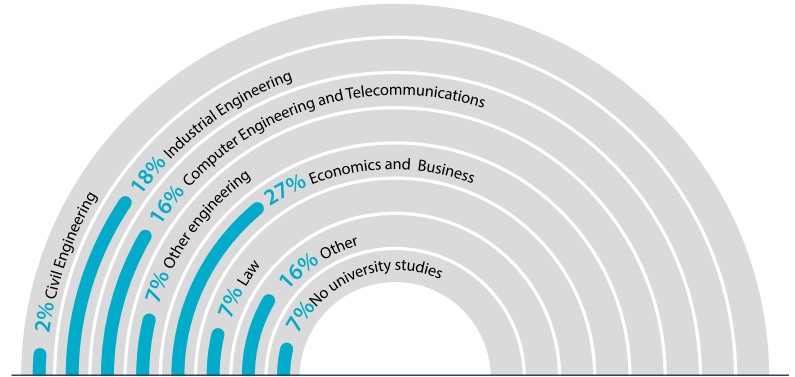

| SECURITY AND PROTECTION:

- Physical security environments (drones, wearables, new identification and control systems, non-intrusive technologies and advanced visualization systems)
- Cyber security
- Cyber-physical management (integrated control centres)

FUNDACIÓN VALENCIAPORT IN NUMBERS:

OUR TEAM

Technical staff
with a University
Degree

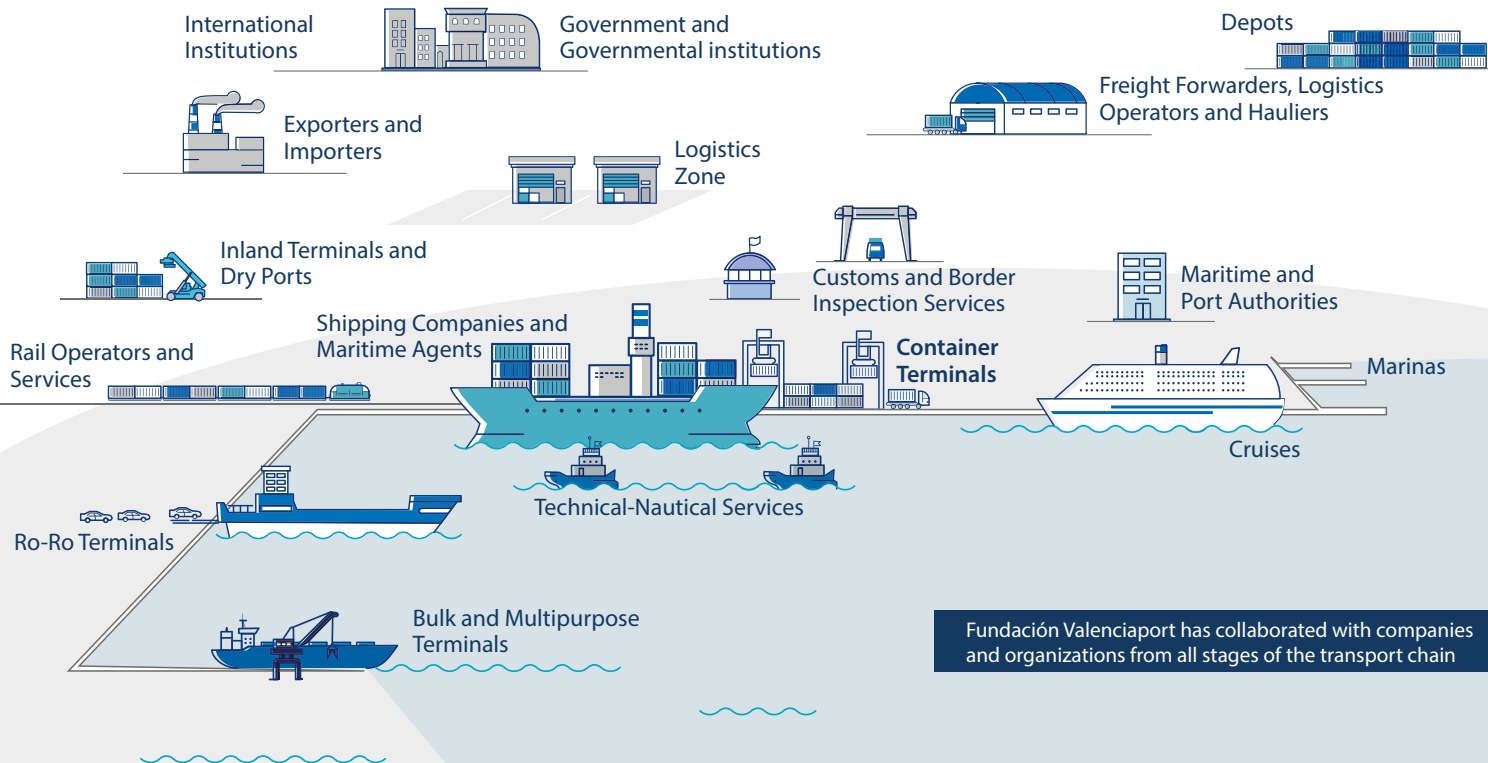

Technical staff with
a Master's or
Doctoral Degree

MASTER'S in Port Management and Intermodal Transport (MGPT) **30th edition** 2021/22

The Master's in Port Management and Intermodal Transport has become established as the most prestigious international Spanish-language training programme specializing in ports, logistics, transport and trade. The course has had a far-reaching impact among professionals and postgraduates in Spain, Europe and Latin America.

In addition to the 29 Master's courses that have been run in Valencia (Spain), an international version of the Master's has been taught in Panama and Colombia, as well as a new Master's with a logistics focus (MLGP) in Argentina, Brazil and Mexico.
