

JOB OPPORTUNITY

BSc or MSc, SPECIALIZED IN ENERGY TRANSITION PROJECTS

1. DESCRIPTION OF THE ORGANIZATION

FUNDACIÓN VALENCIAPORT is a non-profit private organization, with more than 60 employees, located in Valencia (Spain), that provides services to the port and logistics cluster. It is an Applied Research, Innovation, Training and International Cooperation centre dedicated to the design, implementation and execution of R&D&I and consultancy projects specialized in logistics, transport and ports, aimed at improving the competitiveness of companies and institutions in the port logistics sector.

2. DESCRIPTION OF THE JOB

We are looking for a recent graduate with a technical or scientific degree, to join a multi-skilled team specialized in R&D, innovation and consultancy projects in the field of transport. More precisely, it is expected to be initially incorporated to the teams working on European R&D projects on some of the following topics:

- Energy transition to alternative fuels (such as hydrogen or low carbon fuels)
- Measurement of polluting emissions
- Noise

3. SELECTION CRITERIA

- BSc required (Energy Engineering, Mechanical Engineering, Chemical Engineering or similar). MSc and PhD will be recognized.
- Fluency in English is required (at least C1 level or equivalent)
- Good communication skills, both oral and written
- Excellent teamwork skills
- Availability to travel

4. CONDITIONS

- Full time employment contract.
- Salary based on qualifications, skills, specialization and experience of the candidate.
- Flexibility & autonomy depending on coordination and projects.
- Friendly team & collaborative environment. Innovative projects.
- Additional benefits and bonuses.
- Sponsored training according to projects.

Interested candidates please send us your CV and letter of motivation, in English, by e-mail to personas@fundacion.valenciaport.com
